

TIER® Pre-Conference Training Classes 2006

MONDAY

Basic Screen Design One-day Class

**September 25th, 2006
8 a.m. – 5 p.m.**

This one-day course is designed for TIER® Designers who have little or no experience or training. The class will cover such topics as basic TIER® properties and controls, TIER® table structure, understanding table relationships, and other form design concepts. There will be a number of design tips and tricks to improve and streamline your designing skills. This will be a hands-on class and will require a laptop with a local instance of SQLServer. Delphi 7 is optional as TIER 5.0 utilizes the new TIER Designer. Sequest will provide a TIER 5.0 database installation package prior to training.

Fee: \$600. per person - Due at time reservation is made

MONDAY

Basic SQL One-day Class

**September 25th, 2006
8 a.m. – 5 p.m.**

This one-day course will develop users' aptitude in SQL (Structured Query Language). The class will focus on T-SQL (Transact SQL), which is used by Microsoft SQL Server. This course will cover the basic design of a query and how to extract, manipulate and add data to and from the database. This class will look at updating/deleting records, unions, and inner and outer joins. This will be a hands-on class and will require a laptop with a local instance of SQLServer. Delphi 7 is optional as TIER 5.0 utilizes the new TIER Designer. Sequest will provide a TIER 5.0 database installation package prior to training.

Fee: \$600. per person - Due at time reservation is made

MONDAY

Basic Crystal Reports One-day Class

**September 25th, 2006
8 a.m. – 5 p.m.**

This class is designed for those who have little to no experience working with Crystal Reports. It will begin by explaining basic database concepts and how to research and develop a report design. It will show how to create a basic report and make it presentable. Concepts such as table linking, record selection, types of fields, charts, parameters, and running reports from within TIER will be explored. Attendees will be given the opportunity to reinforce their learning through hands-on experience developing different types of reports. Ideas for these reports can either be provided by the instructor or brought by the individuals attending the class. This will be a hands-on class and will require a laptop with a local instance of SQLServer. Delphi 7 is optional as TIER 5.0 utilizes the new TIER Designer. Sequest will provide a TIER 5.0 database installation package prior to training.

Fee: \$600. per person - Due at time reservation is made

TIER® Post-Conference Training Classes 2006

FRIDAY

Screen Design Advanced Training / T-SQL Advanced Training **September 29th, 2006**
One-day Class **8 a.m. – 4 p.m.**

This one-day course is designed for TIER® Designers with experience. The class will delve into the newer TIER® controls, TIERChart, TIERGrid, TIERDecisionSystem and how to incorporate these and other components with T-SQL Views and Stored Procedures. This will be a hands-on class and will require a laptop with a local instance of SQLServer. Delphi 7 is optional as TIER 5.0 utilizes the new TIER Designer. Sequest will provide a TIER 5.0 database installation package prior to training.

Fee: \$600. per person - Due at time reservation is made

FRIDAY

Intermediate Crystal design **September 29th, 2006**
One-day Class **8 a.m. – 4 p.m.**

Those who are looking to expand their designing capabilities beyond the basic report would benefit from this class. Topics discussed include: functions and operators, variables, advanced formulas, cross-tab reports, advanced use of report sections, group sorting, and subreports. Reporting using views and stored procedures will be demonstrated. Attendees will be given the opportunity to reinforce their learning through hands-on experience developing different types of reports. Ideas for these reports can either be provided by the instructor or brought by the individuals attending the class. This will be a hands-on class and will require a laptop with a local instance of SQLServer. Delphi 7 is optional as TIER 5.0 utilizes the new TIER Designer. Sequest will provide a TIER 5.0 database installation package prior to training.

Fee: \$600. per person - Due at time reservation is made
